

Student motivational (admission) video

ECONOMIC DATA SCIENCE

USEFUL TIPS AND
INSTRUCTIONS

1. We don't expect you to prepare a professional video. We expect you will present yourself ...

Tell us your story.

Mention in your motivational video following points:

- At first introduce yourself briefly (study background, work experience).
- Why are you applying to the EDS programme?
- What do you expect from the EDS programme?
- What are your strengths and weaknesses?
- Why are you applying for studies in Czechia (in case you are from another country)?

2. Use your cell phone, computer or camera to prepare this video.

Upload the finished video to YouTube or Vimeo and insert the link for this video to the EDS CV template

720p
1280 x 720

1080p
1920 x 1080

3. Speak slowly, use appropriate language, stay focused on the point. Prepare in advance what you plan to say and **practice**.

4. Choose some quiet place to film the video. It is up to you if it will be inside or outside in a park or garden.

5. The recommended length is **2-3 Minutes**.

6. The video should be accessible for us at least for 120 days after the application deadline.

We wish you good luck with this task. And we are really looking forward seeing your great videos.
