Personal Profile

Provide a brief professional profile summarizing your educational background, professional experience, current role, and key reasons for applying to the Information Systems Management programme.

Educational Background

List your completed and ongoing university studies. Include institution, degree programme, specialization, graduation year (or expected graduation date), and significant academic achievements. Pay special attention to completed courses that are relevant to your ISM studies.

PROFESSIONAL CV

INFORMATION SYSTEMS MANAGEMENT

Professional Experience

Describe your professional experience, beginning with your current position. For each role, provide: organization, position, duration, key responsibilities.

Information Systems and Data Analytics Experience

Describe your experience with information systems, business applications, digital platforms, data analysis tools, cloud services, ERP systems, CRM systems, project management tools, or other technologies relevant to information systems management.

Select up to three projects that best demonstrate your analytical, organizational, leadership, or information systems competencies.
