Example for writing an essay

Information Systems Management

Topic of the essay will be determined and an article or academic paper relevant to the topic will be selected.

Example:

Topic: The impact of SOX on IT: Can organizations benefit from the 20 years old law?

Article: https://www.isaca.org/resources/isaca-journal/issues/2022/volume-1/the-impact-of-sox-on-the-industry-20-years-ago-and-today

The applicants are expected to:

- Identify the main conclusions of the article/academic paper author.
- Collect relevant reliable resources/data.
- Analyse selected sources in relation to the identified conclusions of the author/s of the article.
- Formulate opinion whether they agree with the article or not and support it with arguments based on some other relevant and reliable sources.
- To draw their own conclusions from the analysis.
- All references should be cited following the university citation rules
