

## Master's study programmes taught in English for academic year 2027/2028

| Study Programme                      | Specialization                     | Standard Length of Study | Anticipated Number of Admitted Students | Mode of Study |
|--------------------------------------|------------------------------------|--------------------------|-----------------------------------------|---------------|
| Economic Data Analysis (EDA)         | X                                  | 2 years                  | 25                                      | face-to-face  |
| Information Systems Management (ISM) | Data and Business                  | 2 years                  | 30                                      | face-to-face  |
|                                      | Management of Business Informatics |                          | 30                                      |               |

### Admission Requirements

Applicants must meet the following conditions to be eligible for admission:

- Completion of at least a bachelor's degree.
- Successful completion of the admission examination.
- Proof of English language proficiency.

**Proof of English proficiency** at B2 level or higher has to be submitted, i.e. IELTS 6 or higher, TOEFL iBT 78 or higher, FCE, CAE, CPE, Duolingo 110 or higher or another internationally accepted English certificate equivalent to B2 level of the CEFR. The submission of the proof of English is not required from students who have completed the bachelor's degree fully taught in English.

- Applicants have to submit a scan of their international passport (or national ID for EU citizens).
- Applicants can apply for the academic year 2027/2028 only once, either within the application round I or II.

### Admission Examination Form

#### 1. Oral exam

The oral examination aims to assess the applicant's knowledge relevant to the study programme, their level of English proficiency and to evaluate their overall motivation. This oral exam can be conducted online.

#### 2. Aptitude for study

Aptitude for study in both study programmes is assessed from a **structured curriculum vitae** (a given template, which includes information on previous studies, grades, passed courses and certificates, work experience).

### Exam evaluation

| Part of the exam   | Maximum score |
|--------------------|---------------|
| Oral exam          | 80%           |
| Aptitude for study | 20%           |
| <b>Total</b>       | <b>100%</b>   |

### Verification method of the condition of acceptance

A completion of at least the bachelor's degree programme must be verified before the enrolment in the studies by submission of officially notarized copy of the university diploma, a notarised copy of a diploma supplement or a transcript of records. Furthermore, applicants who gained the bachelor's degree programme at a foreign university, must submit its officially certified translation into Czech or English, if applicable.

### Decision on admission

Admission will be determined by the order of the applicants who have met the admission conditions declared by the Dean of the Faculty for the total point count.

In the event that the applicants who have been admitted do not use their right to enrol into studies (Section 51 of Act No. 111/1998 Coll.), applicants who file an appeal against the non-acceptance decision can be admitted to these vacancies. In this case, the criteria will be the order of total points earned, fulfilment of the conditions of admission and the appeal against the non-acceptance decision.

The holders of the government scholarship programmes of the Czech Republic for developing countries<sup>1</sup> will undergo a different admission procedure corresponding to the requirements and conditions of the Government Scholarship program. The Dean of the Faculty of Informatics and Statistics may accept them according to those requirements.

### **Application for study**

The application for study is submitted electronically. The assigned username and password must be carefully stored for further communication with the Faculty of Informatics and Statistics.

Once the application has been filled in, the applicant will receive (to the provided e-mail address) instructions about the account number and variable symbol needed for the payment of the fee (100 EUR) for the admission procedure. The fee can be paid directly in the e-application system via credit card as well.

An application is considered as filed when it is filled in correctly, and the application fee in the required amount is paid and received at the university's respective account.

The fee is non-refundable. Only applicants who paid the application fee and filled out the whole application form will be allowed to take the admission exam.

Applicants to the Information Systems Management programme fill in one application form, where they have to choose one or both specializations (Management of Business Informatics, Data & Business) and a priority of the specialization has to be stated.

**All documents in the admission procedure are delivered by VŠE via its electronic information system InSIS.**

**Applicants make all submissions to the VŠE electronically via its electronic information system InSIS.**
